

In Re Application Of:

R. R. Reinecke;

J. A. Reinecke

Serial No.: 10/803,017

Page 2

IN THE SPECIFICATION:

Please change the "Title of the Invention" from 'ILLUMINABLE APPARATUS AND METHOD OF OPERATING SAME" to --ILLUMINABLE APPARATUS --.

Please amend Paragraph [0002] as follows:

[0002] Children are particularly fascinated with devices requiring their personal interaction.

Blowing out candles on a birthday cake is a classic example of how a child's interaction with a particular activity maintains a child's continuing interest in that activity. What would a child's birthday party be without that child's interaction in blowing out the candles on the cake[.]?

Please delete Paragraph [0014] in its entirety.
